

## Safe Retirement Planning

***Grow your nest-egg every day – whether stocks go up, down, sideways or crash!***

Do you know how much your retirement account will be worth in 10 years, 20 years, or on the day you hope to tap into it?

If you're like most Americans, *you don't have a clue!* You may *hope* it'll be worth a certain amount, but do you actually *know* how much you can *count* on having at any given point in the future?

If you can't answer that question, *you don't have a plan!* You're *gambling*.

### **Will you outlive your money?**

- The typical household nearing retirement has an average of \$111,000 in their combined retirement accounts, with will provide them *at most* \$500 per month. (Source: Federal Reserve Survey of Consumer Finances)
- Many people say they plan to work longer to pay for retirement, however about *half* of all people who retire are *forced* to do so earlier than planned, due to sickness, layoffs, or the need to take care of a loved one. (Source: Employee Benefit Research Institute)

Surveys show most Americans are *scared to death* of outliving their money – *and for good reason*: They have the *majority* of their savings invested in the volatile, unpredictable stock market.

PRIVATE BANKING STRATEGIES  
Be The Bank!

[www.privatebankingstrategies.com](http://www.privatebankingstrategies.com)

Yet they continue to hold on to the hope that the Wall Street Casino will make them wealthy – if only they stick with it long enough.

**Hogwash! The *only* thing Wall Street *guarantees* you is that *they* get paid whether *you* win or lose!**

Wall Street has been astonishingly successful in brainwashing us into believing we have to *risk* our money in order to grow it.

Here's what the Wall Street fat cats are desperately hoping you don't figure out: You can bypass Wall Street *altogether* and grow your wealth safely and predictably *every* single year – *even* when stocks, real estate and other investments tumble.

### **A retirement fund you can truly count on**

Our **Private Banking Strategies** uses a *turbo-charged variation* of an asset that has increased in value during *every* single market crash and in *every* period of economic boom and bust for more than 160 years – dividend-paying whole life insurance.

But this is NOT the kind of whole life policy **Suze Orman, Dave Ramsey and other financial “gurus”** talk about.

With this little-known variation, *you don't have to die to “win”*. And it can **beat the pants off your traditional saving or investing strategies.**

### **Our Private Banking Strategies let you:**

- Never again suffer another losing decade in your financial plan...*or even a single lost day*

**PRIVATE BANKING STRATEGIES**  
Be The Bank!

[www.privatebankingstrategies.com](http://www.privatebankingstrategies.com)

- *Look forward to opening your account statements*, because they *always* have good news and *never* any ugly surprises
- Grow your savings by a *guaranteed and predictable* amount *every* year
- *Fire your greedy banker and credit card companies* and become your *own* source of financing – get access to money *when* you need it, on *your* terms, buy answering just *one* question: How much do you want?
- Have a *financial safety net* to see you through life’s inevitable challenges and emergencies
- Enjoy true financial security that comes from knowing you have a *rock-solid financial foundation* and a chunk of your hard-earned dollars in a plan that goes in only *one* direction – UP
- Have the *peace of mind* that comes from *knowing* the answer to the question, “Do you know what your retirement account will be worth on the day your plan to retire?”
- Work with a qualified Advisor to map out your retirement in a logical **step-by-step process**

### **Request your FREE Analysis and find out *Your* Bottom-Line Numbers!**

There’s no obligation and no one is going to twist your arm. [So, take the first step and Contact Us now](#), while it’s fresh on your mind!

### **How our Private Banking Strategies gives you a predictable retirement income**

Wake up. Stop playing what could be retirement-plan roulette and have the peace of mind that a predictable retirement income stream brings. Using our **Private Banking Strategies** one couple was able to:

- Fund their policy primarily by redirecting money they had been contributing to the 401(k) plans they felt they could count on
- Retire the year they both turned sixty-eight, as they had planned all along
- Access close to \$1.25 million, at the time they retired
- Grow their retirement fund even after spending for foreign travel, new cars every four years for each of them, and medical bills
- Take a retirement income of around \$70,000 a year, just from the first two policies they started, for a total of \$2.31 million over thirty-three years of retirement, because their plans continued to grow while they were taking retirement income
- Have the comfort of knowing that if either one of them died, the other would receive the full current death benefit of the policy, less any outstanding loans

### **How does *your* retirement plan compare?**

We have done our homework, now it's your turn. Learn how our ***Private Banking Strategies system*** beats the pants off of traditional investment strategies.
